The EASIT project

The project in short

EASIT will...

- define the **skills of new professional profiles** in making content easy to understand,
- design **a curriculum** and
- develop innovative **open educational materials**, while approaching certification.

To define both the professional skills and the content of the open educational resources, it will be necessary to define a **methodological framework** for implementation and propose innovative recommendations in **AV content**.

Co-funded by the
Erasmus+ Programme
of the European Union

The EASIT project

The project in short

Aims:

1. To **build on existing quality outputs** from previous EU projects.
2. To **promote the exchange of experience and know-how** between expert stakeholders from different fields and sectors.
3. To adopt a **transnational approach** promoting the EU's broad linguistic diversity and intercultural awareness.

Co-funded by the
Erasmus+ Programme
of the European Union

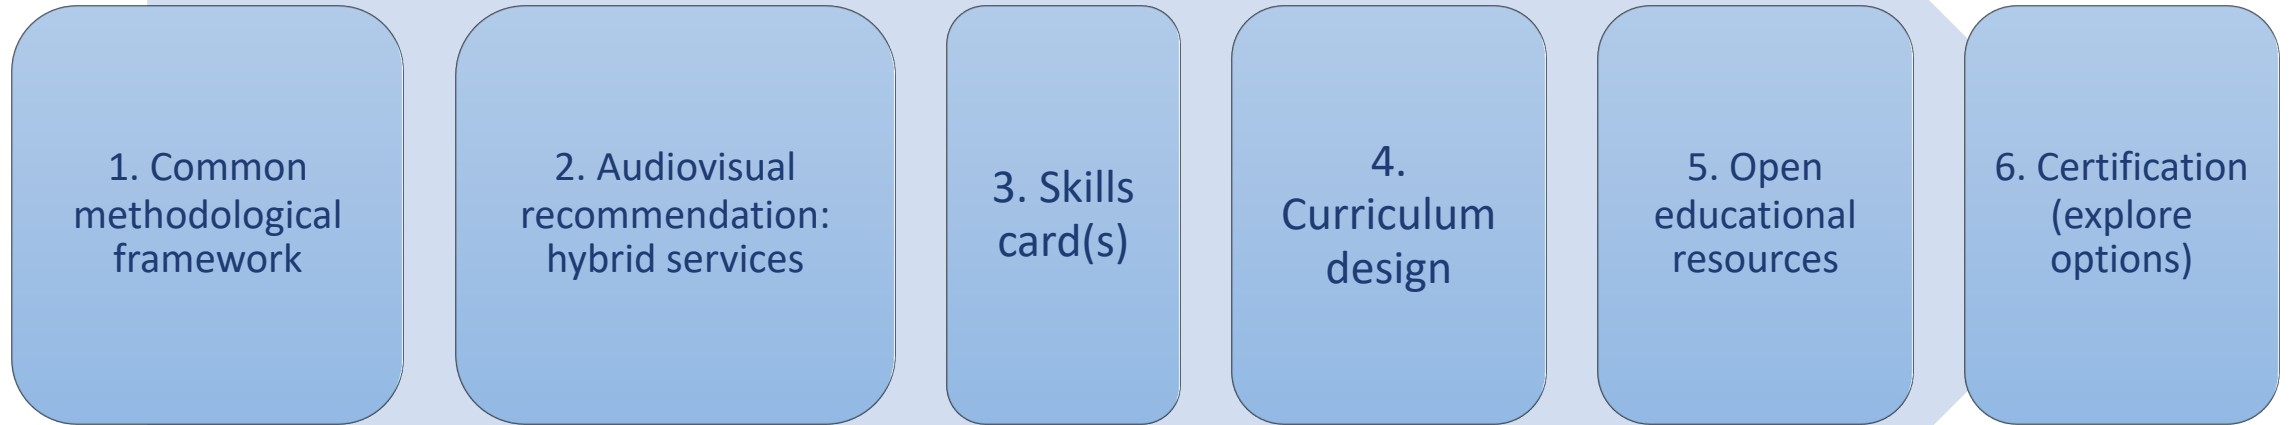

The EASIT project

The project in short

Aims:

4. To **define** the **skills** of experts in making content easy to read and understand, and explore whether **complementary competences** may be added to professional profiles defined in previous ERASMUS + funded projects (eg. Subtitler, describer)
5. Propose **a curriculum** design to train the experts, expanding already existing curricula for other access experts.
6. Create **flexible open educational resources** (OER) that can be used in different learning environments.
